

The FUN4FOUR GAME TABLE

Most innovative video game table for up to 6 players

The Fun4Four game table is presented with a unique concept. It is the world's first video game table for use in public places.

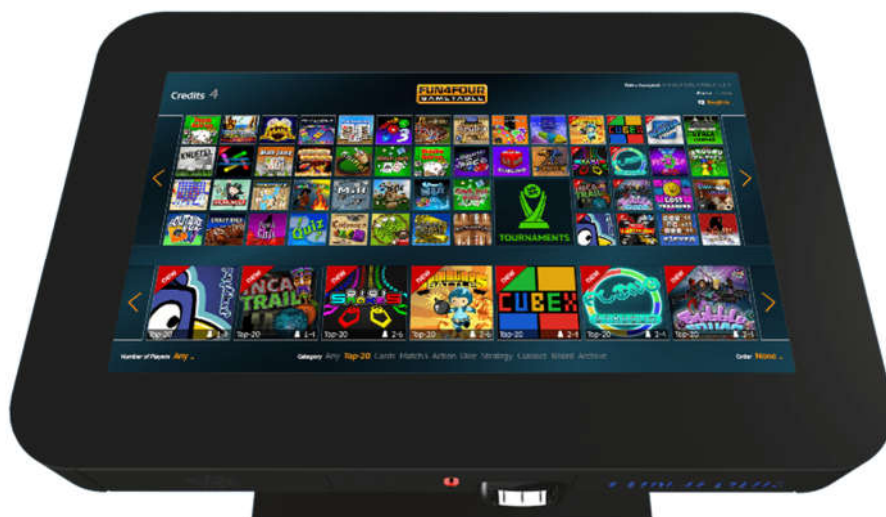

The Fun4Four game table is simply an incredibly attractive and innovative device.

The modern design of the table is enhanced by a full glass touch surface which is covered with a special anti-glare coating. Available in black and white, the device is a standout design for any location, regardless of the color variant you choose. People will be drawn to this table because they have never seen anything like this before

The main concept of the table is for players to meet, talk, eat, drink and play. Up to 6 people can choose from a variety of over 80 games, including card games, dice games, and action games for kids and adults.

Due to the large number of pioneering innovations and entertainment games thanks to technical support, the Fun4Four game table is the highlight in all bars, clubs or youth centers as it does not contain games with violent content.

To have a lot of fun playing even in groups, the table offers the opportunity to play with up to 6 people at the same time.

The Fun4Four game table is equipped with a 42-inch touchscreen and height adjustable stand to meet the needs of gamers. In addition to its simple yet modern design, the table also convinces with the aesthetics achieved.

The player can compete in both local, national and world classifications in one click by registering to control their score at all times by playing in

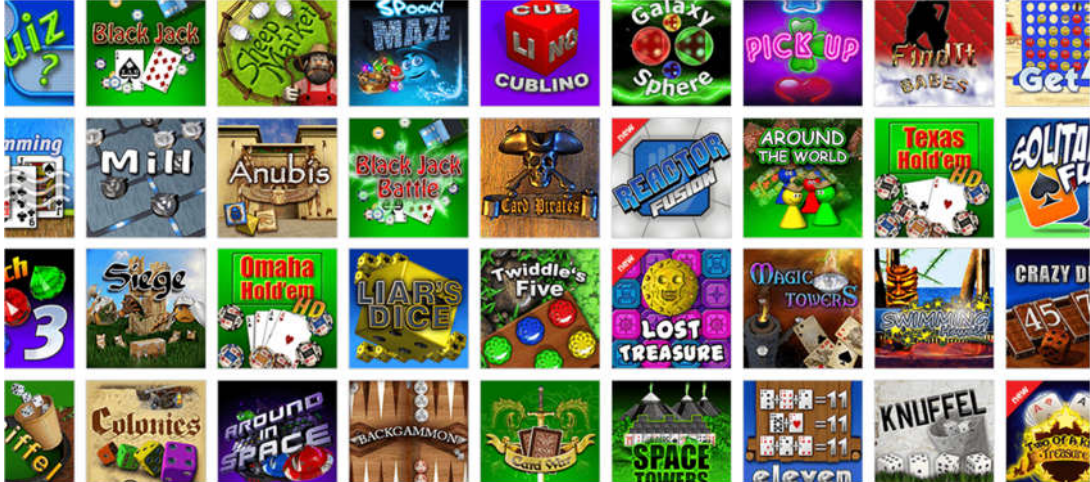

both simple and tournament mode, being recorded forever and being able to get exclusive gifts by becoming champion! This tournament mode is part of the Online Terminal Administration, which can be subscribed for a small monthly amount. This service installs updates with new games for Fun4Four automatically every so often.

The latest in state-of-the-art technology for online entertainment is the Fun4four table, it does not need a license because it's not a gambling machine.

Increase your profits by making the most of every corner of your establishment, controlling at all times from your mobile device real-time earnings.

The Fun4Four game table is a way to immerse the player in a world full of entertainment from which you will have no escape!

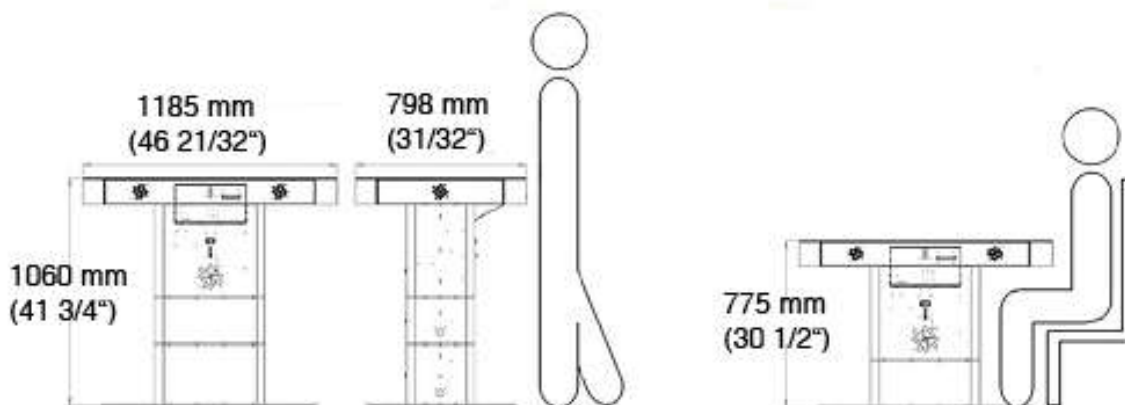

Immerse your establishment in a world full of entertainment!
